

# Elevate Your FFA Intraday Data

## Why?

---

In the OTC market, intraday data is a linchpin for traders and quant researchers navigating the FFA landscape. It grants immediate access to market trends, fostering rapid and informed decisions. This data is pivotal in pinpointing arbitrage opportunities and steering clear of risks, carving out a substantial advantage in the fiercely competitive FFA market.

## What we do

### Transform Unstructured Data into Actionable Insights

---

Leed & Partners specializes in converting unstructured data, such as messages from WhatsApp chats, into clean, actionable intraday data, in real-time. Our service sifts through and refines the data to deliver precise insights, enhancing both your analytics and trading strategies in the FFA market.

### Forge Bespoke Visualization Tools

---

Seamlessly integrate the refined data into your existing toolkit or let us craft custom real-time apps to furnish you with unparalleled insights.

OHLC graph for Cape 2023, derived from real-time intraday data.

World's leading  
companies trust us to  
help them make the right  
decisions.
